STATISTICAL SECTION

The Statistical Section presents detailed information for the primary government in the following areas, as a context for understanding what the information in the Financial Section says about the County's overall financial health:

FINANCIAL TRENDS - Information to help the reader understand how the County's financial performance and well-being have changed over time.

REVENUE CAPACITY - Information to help the reader assess the County's most significant local revenue source, the property tax.

DEBT CAPACITY - Information to help the reader assess the affordability of the County's current levels of outstanding debt and the County's ability to issue additional debt in the future.

DEMOGRAPHIC AND ECONOMIC INFORMATION - Indicators to help the reader understand the environment within which the County's financial activities take place.

OPERATING INFORMATION - Service and infrastructure data to help the reader understand how the information in the County's financial report relates to the services the County provides and the activities it performs.

Many of these tables cover more than two fiscal years and present data from outside the accounting records. Therefore, the Statistical Section is unaudited.

For FY05, the Statistical Section incorporates, earlier than required, substantially all new information mandated by Governmental Accounting Standards Board (GASB) Statement No. 44, *Economic Condition Reporting: The Statistical Section*. The County anticipates implementing the remaining information relating to Table 16, Computation of Net Direct and Overlapping Debt in FY06, which is the official effective date of this Standard.

NOTES:

- * Government-wide net asset information is reported on the accrual basis of accounting.
- * Accounting standards require that net assets be reported in three components in the financial statements: invested in capital assets, net of related debt; restricted; and unrestricted. Net assets are considered restricted when (1) an external party, such as the state or federal government, places a restriction on how the resources may be used, or (2) enabling legislation is enacted by the County.
- * Information prior to FY02 is not available, due to the FY02 implementation of GASB34.
- (1) The County's governmental activities has an unrestricted deficit because the County issues debt to fund construction costs for MCPS and MCC, two of its component units, and for M-NCPPC, a joint venture. Absent the effect of this relationship, the County would have reported positive net assets for its governmental activities and for government-wide purposes. Government-wide unrestricted net assets would have been:

Unrestricted (deficit) net assets reported above	\$ (314,355,173)	\$ (443,298,879)	\$ (477,461,966)	\$ (405,345,154)
Debt issued for capital on behalf of others	774,849,011	809,194,115	817,668,162	786,773,722
County net assets absent effect of this relationship	\$ 460,493,838	\$ 365,895,236	\$ 340,206,196	\$ 381,428,568

(2) Beginning in FY05, for government-wide purposes, the Business-type Activities net assets invested in capital, net of related debt, includes in capital assets, certain garages, acquired by capital lease by the Silver Spring Parking Lot District. Since the related capital lease liability is an obligation of the Governmental Activities, and the debt does not relate to a governmental capital asset, the impact of such debt is reported in the unrestricted portion of net assets for Governmental Activities purposes. However, for total Primary Government purposes, the impact of such debt as been reclassified out of unrestricted net assets and reflected with the associated capital asset, in net assets invested in capital, net of related debt.

- * Government-wide net asset information is reported on the accrual basis of accounting.
 * Information prior to FY02 is not available, due to the FY02 implementation of GASB34.
- (1) Net (expense)/revenue is the difference between the expenses and program revenues of a function or program. It indicates the degree to which a function or program is supported with its own fees and program-specific grants versus its reliance upon funding from taxes and general revenues. Numbers in parentheses indicate that expenses were greater than program revenues and therefore general revenues were needed to finance that function or program. Numbers without parentheses $mean\ that\ program\ revenues\ were\ more\ than\ sufficient\ to\ cover\ expenses.$
- (2) See Table 2-b for detail of General Tax Revenues.
- (3) FY02 governmental activities loss on sale of capital assets has been reclassified from General Revenues to Expenses to conform with the current year presentation.
- (4) For FY02 through FY04, the value of developer dedicated roads has been reclassified from Investment Income, where it was inadvertently originally classified, to Public Works and Transportation Program Revenues, to conform with the current year presentation.

- * Exempt and nontaxable property are not included in this table.
- * The following classes of property are not taxed: 1) personal property not used in a trade, business, or profession, and 2) business inventories.
- * Intangible personal property is exempt from taxation except in two instances: shares of stock in certain domestic utilities and oil pipeline corporations (shown above) and intangible personal property of corporations under a contract with the State, granted charter exemptions from property taxation.
- * Property owned by the Federal government, the State, or a subdivision or agency of either, is exempt. Also exempt are real and personal property used for religious, educational, or charit purposes. Specific exemptions involve historical property, societies and museums, conservation property, cemeteries, certain fraternal and service organizations, continuing care facilities aged, nonprofit housing property, and dwelling houses of disabled veterans and blind persons.
- (1) Fiscal year 2002 was the first year that all real property in the State of Maryland was assessed at 100 percent of full assessed value; prior to 2002, real property was assessed at 40 percent full assessed value. Real property tax rates were changed in fiscal year 2002 to reflect this change in methodology.
- (2) Residential real property includes single-family homes, townhouses, and condominiums but excludes apartment dwellings which are included under the Commercial/Other category.
- (3) For personal property, the assessed value and estimated actual value are the same.
- (4) See Table 9-a for real and personal property direct tax rates.

- * The charter requires that revenues from real property taxes cannot exceed last year's revenues adjusted by the rate of inflation excluding revenues from new construction. The Council can adopt tax rates that exceed this limit by a supermajority of seven out of nine councilmember's.
- * No discounts are allowed.
- * Taxes are levied as of July 1, are due by September 30, and become delinquent the following October 1.
- * Unless homeowners elect to pay their real property taxes annually, taxes are paid on a semi-annual basis with payment due by September 30 and December 31.
- * Interest and penalty at 20 percent are assessed on delinquent tax bills.
- * Revised tax bills based upon certifications from the State received after September 1 may be paid within thirty days without interest.
- * Delinquent taxes on real property are collected by sale. Taxes on personal property are enforced by legal action. Corporations may lose charter for failure to pay taxes.
- * Costs of tax sale, which vary, are added to tax bills. The last sale cost \$25 per parcel.
- * Tax sale date: second Monday in June.
- * Personal property tax rates are applied to 100 percent of the property assessment.
- (1) Fiscal year 2002 was the first year that all real property in the State of Maryland was assessed at 100 percent of full assessed value; prior to 2002, real property was assessed at 40 percent of full assessed value. - (1) General Bonded Debt includes all general obligation debt, regardless of purpose or repayment source, and other bonded debt financed with general government resources. Governmental lease revenue bonds and business-type revenue bonds are excluded because they are repayable from specific resources other than general governmental resources. Other debt is excluded because it is not in the form of bonds.
- (2) General Obligation Bonds is comprised of both governmental and business-type activities from Table 14.
- (3) See Table 8 for estimated actual value of taxable property data.
- (4) See Table 20 for population data.

- (1) Net direct debt of the County includes general obligation bonds, commercial paper bond anticipation notes, and long-term notes payable. Overlapping debt is the debt of other governmental entities in the County that is payable in whole or in part by taxpayers of the County. It includes general obligation bonds, revenue bonds, mortgages payable, notes payable, commercial paper bond anticipation notes, certificates of participation, and bank loans.

 (2) Self supporting debt is payable solely from the earnings of the enterprise for whose construction or improvement the debt was issued.
- (3) Entities are wholly within Montgomery County.

- (1) See (1) on Table 8.
- (2) See (3) on Table 8.
- (3) As a Charter County, the legal debt limit is provided by Article 25A, Section 5(P), of the Annotated Code of Maryland. Prior to June 1, 2001, the legal debt limit was 15 percent of the assessable base (real and personal property) of the County. During that time, the assessable base for real property was 40 percent of the full assessed value. Effective June 1, 2001, real property in the State of Maryland began being assessed at 100 percent of full assessed value instead of the previous 40 percent assessment method. Also effective June 1, 2001, the section of the Code referred to above was amended in conjunction with the real property assessment change. Under the amendment, the legal debt margin is a total of 6 percent of the assessable base (presented at 100 percent) of real property of the County and 15 percent of the County's assessable base of personal property and operating real property.

- (1) Table includes debt that is secured by a pledge of a specific revenue stream, and is designed to reflect whether the County had to use general (unpledged) revenues to repay debt that was intended to be self-supporting.
- (2) Gross revenues include non-operating investment income. Gross revenues for the parking lot district bonds include all revenues of the district and consist primarily of parking fee charges for services, parking fines, and dedicated property taxes. Gross revenues for the metrorail garage project lease revenue bonds include lease payments from WMATA.
- (3) Operating expenses do not include interest, depreciation, or amortization expenses.
- (4) Debt service consists of amounts relating to revenue or lease revenue bonds; amounts relating to general obligation bonds are excluded.
- (5) Data for 1996 and 1997 are not readily available since during those years all Solid Waste Activities were combined in the financial statements.
- (6) Since 2002, the Solid Waste Disposal Fund has been deliberately using fund net assets (not general unpledged revenues) to fund expenditures in an attempt to reduce the accumulated fund net assets. Over the next several years, the goal is to reduce excess cash to a point where the cash plus investments in excess of reserve requirements is no more than \$1 million. During FY06, towards this end, cash plus investments should decrease by another \$10 million.
- (a) Silver Spring Parking Lot District revenue increase is due to revenue received from the sale of Lot #19 to a third party in connection with the Silver Spring revitalization project.
- (b) Silver Spring Parking Lot District revenue increase is due to state aid intergovernmental revenue for the purchase of land in connection with the Silver Spring revitalization project.
- (c) Solid Waste Disposal revenue increase is due primarily to a decrease in the landfill closure liability.
- (d) Solid Waste Disposal revenue decrease is due to write offs of accounts receivables.

- (2) Source: Bureau of Economic Analysis (BEA), U.S. Department of Commerce. Personal income includes money income from wages and salaries; transfer payments such as social security and public assistance; income from rent, interest and dividends. Data for 1996-2003 were revised by BEA and data for 2004 and 2005 are estimates.
- (3) Per capita income is derived by dividing personal income by population.
- (4) Source: Bureau of Labor Statistics (BLS), U.S. Department of Labor. Civilian labor force data include all persons in the civilian noninstitutional population classified as either employed or unemployed and counted by place of residence and are revised for 1996 - 2003 and estimated for 2004. Please note: BLS undertook significant revisions to the County's civilian labor force data during the summer of 2005 for calendar years 1990 through 2004.
- (5) Source: BLS, U.S. Department of Labor. Resident employment includes all persons who during the survey week (a) did any work as paid employees, worked in their own business or profession or on their own farm, or worked 15 hours or more as unpaid workers in an enterprise operated by a member of their family, or (b) were not working but who had jobs from which they were temporarily absent because of vacation, illness, bad weather, etc. Each employed person is counted only once, even if he or she holds more than one job, and is counted by place of residence and not by place of employment.
